Funkcionalnosti

Korišćeni programski jezici:

HTML5, CSS3, JavaScript, jQuery, PHP, MySQL baza

Opis

Sajt je namenjen kompaniji koja se bavi iznajmljivanjem vozila iz kultnih filmova. Sajtu mogu pristupiti neautorizovani i autorizovani korisnici, dok samo autorizovani korisnici mogu iznajmljivati vozila i pristupati delu sajta koji je namenjen za profile.

Autorizovani korisnici koji imaju ulogu "Admina" klikom na logo ili ime sajta bivaju prebačeni na admin panel.

Zbog malog broja vozila i lakoće registrovanja naloga, odlučio sam da više osoba može iznajmiti **isto vozilo**.

Glavni meni:

Logo-Link koji redirektuje u zavisnosti od uloge korisnika koji je kliknuo na njega, Login forma i link ka registraciji. Ukoliko je korisnik ulogovan, umesto login forme i registracije biće prikazan link ka profilu korisnika i link za logout.

Registracija:

Forma za registrovanje korisnika, ukoliko su ispravni svi uneti podaci proverava se da li je već registrovan mail i da li postoji ista vozačka dozvola kod registrovanih korisnika u bazi.

Ukoliko je sve ispravno. Korisnik biva redirektovan na svoj profil.

Home:

Ispis vozila sa popustom ili iz kataloga iz baze. Klik na jedno od tih vozila vodi na stranicu o tom konkretnom vozilu.

Katalog:

Lista po tri vozila iz baze, prikaz ukupnog broja vozila, paginacija.

Klik na jedno od tih vozila vodi na stranicu o tom konkretnom vozilu.

Detalji vozila:

Ispis konkretnog vozila iz baze sa slikama, cenom po danima, "bonus paket" i njegova cena, kratak opis vozila. Ukoliko korisnik nije registrovan ili ima aktivan najam neće moći da pređe na "*paperwork*" stranicu.

Paperwork:

Forma u kojoj su automatski unešena polja o korisniku, koja se pamte prilikom registracije, njih nije moguće promeniti na ovoj stranici. Jedino promenljivo polje jeste polje za unos Adrese preuzimanja i vraćanja vozila. Ispod tekstualnih polja se nalaze dva unosa za datum: datum preuzimanja i datum vraćanja vozila. Datum preuzimanja mora biti najmanje **24h** udaljen od trenutnog datuma i vremena, ukoliko unos nije validan, polje za povratak neće moći da se menja.

Ukoliko su datumi validni, ispisaće se konačna cena iznajmljivanja (dani * cena(popusta) po danu). Da bi korisnik uspešno iznajmio vozilo, sva polja moraju biti validna (Checkbox za bonus paket nije obavezan i samo utiče na konačnu cenu). Nakon submitovanja, podaci se unose u bazu, i šalje se zahtev za odobrenje najma. Korisnik se redirektuje na stranicu svog profila.

Profil:

Ovde autorizovan korisnik može menjati svoje podatke, pregledati listu svojih prethodnih iznajmljivanja, i videti **status** aktivnog najma. Ukoliko admin odbije

najam, korisniku će izaći poruka kada bude ušao na stranicu svog profila da je njegov zahtev za najam odbijen.

ADMIN PANEL

Active-rents:

Na ovoj stranici, adminu su prikazani: Najmovi koji tek treba da se odobre i odobreni najmovi. Odobreni najmovi imaju opciju "cancel" koja vraća najam u neodobreno stanje dok neodobreni najmovi imaju dve opcije: "approve" i "delete". Prva opcija odobrava dok druga briše zahtev najma.

Lista korisnika:

Nalazi se lista admina i korisnika, ukoliko je korisnikova uloga "Super admin" može uneti još jednog admina putem forme.

Lista vozila:

Na početku su izlistana sva vozila dostupna korisniku, klikom na neko, admin biva prebačen na update stranicu tog vozila.

Ispod liste vozila nalazi se forma za unos novog vozila. Sva polja moraju biti ispravno popunjena i ukoliko su prosleđene slike i glavna slika, podaci se unose u bazu.

Update vozila:

Na ovoj stranici su izlistani svi podaci o kliknutom vozilu. Sve slike se mogu obrisati, osim glavne koja biva obrisana tek kad se ažurira nova glavna slika.

U formi, ispod prikaza slika, tekstualna polja su automatski popunjena podacima o vozilu, ali ova polja se mogu menjati ukoliko admin želi da ažurira određen podatak.

Istekli najmovi:

Ovde su ispisani u tabeli svi najmovi koju su istekli. Prilikom učitavanja bilo koje stranice poziva se funkcija koja proverava sve neistekle najmove i ažurira odgovarajuće ukoliko im je datum vraćanja manji od trenutnog datuma.

Activity log:

Prilikom svakog unosa admina u bazu, odobravanja ili brisanja najma, dodavanja novog vozila ili ažuriranja, pravi se log te aktivnosti u bazi. Jedino se ne upisuje unošenje novog admina od strane Super admina.

Why chose **RR**?

Rent your Ride offers a wide range of rides for rent. The vehicles we offer have space for 5 to 9 passengers. Every ride is regularly serviced and maintained, and fully prepared for both summer and winter driving. Also, you can opt to acquire the bonus package that comes with the vehicle for a reasonable price.

Rent these rides with a discount

1981 DeLorean DMC-12

Originally fueled by radioactive plutonium, this DeLorean was modified in 1955 to run on the electricity in a lightning bolt. Later a power plant was installed, allowing it to run on practically any available matter. Recycling matters.

Bumblebee Camaro

It's a car, it's an Autobot, it's a Camaro. Comes with a self driving option and voice recognition. No need to worry about people trying to steal it. Try not to spill anything inside since it won't take it kindly.

1985 Austin Mini

This legendary vehicle, previously owned by Mr. Bean, has seen it all. It may not have the looks.

The screenshot shows the 'About me' page of the 'Rent your Ride' website. The header is red with the 'Rent your Ride' logo and navigation links: Home, Rentable rides, and ToS. On the right, there are input fields for Email and Password, and buttons for Login and Register. The main content area has a dark background with the title 'About me' and a profile picture of a young man. Below the photo, there is a paragraph in Croatian: 'Student sam završne godine strukovnih studija na Visokoj ICT školi, u slobodno vreme plešem, programiram i čekam da Milanko izbaci rezultate.' This is followed by the text 'Luka Vukotić 140/16' and 'Visoka ICT škola 2020.' The footer is dark grey with copyright information: '©2020 Copyright by RR | Luka Vukotić 140/16 | Rent your Ride' and a 'Powered by 000webhost' badge. A central graphic shows a hand holding a pen over a document labeled 'About'. The bottom section has a starry space background with a paragraph: 'If our list of rides haven't satisfied your needs, you can take a look at Space-Port's depot. They offer the craziest flyable ships ever made!' and a button labeled 'Our Sister company's website'.

Ridepice

The screenshot shows the phpMyAdmin interface for a MySQL database. The left sidebar displays the database structure, including a schema named 'information_schema' and several tables. The main panel shows the 'Table structure' view for the 'ridepic' table in the 'id12619470_rr' database. The table has three columns: 'idRP' (int(11), PRIMARY, AUTO_INCREMENT), 'idS' (int(11)), and 'idR' (int(11)). Below the column list, there is a section for 'Indexes' showing three indexes: 'PRIMARY' (BTREE, Yes, No, idRP, 35, A, No), 'idS' (BTREE, No, No, idS, 35, A, No), and 'idK' (BTREE, No, No, idR, 17, A, No). At the bottom, there is a 'Partitions' section indicating 'No partitioning defined!'.

No partitioning defined!

Activity

The screenshot shows the phpMyAdmin interface for a MySQL database named 'id12619470_rr'. The 'activity' table is selected, and its structure is displayed in the 'Table structure' tab. The table has six columns: 'idA' (int(11), PRIMARY, AUTO_INCREMENT), 'who' (varchar(50), utf8_unicode_ci), 'act' (varchar(50), utf8_unicode_ci), 'obj' (varchar(50), utf8_unicode_ci), 'info' (varchar(50), utf8_unicode_ci), and 'dat' (datetime). Below the table structure, there are options to 'Check all' and 'With selected:'. The 'Indexes' section shows a single PRIMARY index on the 'idA' column. The 'Partitions' section is empty.

#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra	Action
1	idA	int(11)			No	None		AUTO_INCREMENT	Change Drop More
2	who	varchar(50)	utf8_unicode_ci		No	None			Change Drop More
